

RIZON KNOWLEDGE PLATFORM

Full Quality Assurance, Security & Performance Testing Report

Report Generated: August 19, 2026 | Environment: Next.js + React 19 + Supabase

1. Executive Summary & Audit Status

A comprehensive end-to-end audit was conducted across all components, responsive viewports, authentication guards, image media pipelines, and module exam quiz engines of the RIZON Knowledge Platform. All automated build checks passed cleanly with 0 TypeScript compilation errors. The application has been fully deployed to the remote GitHub repository.

2. Comprehensive Testing Suite Matrix

Test Domain	Verification Target	Status	Audit Finding
TypeScript Type Check	Full Workspace Build	PASSED (0 Errors)	Clean npx tsc check
Mobile Responsiveness	320px - 1024px Viewports	PASSED	100% Adaptive Grids
Image Upload & Viewer	Lightbox & Extra Section	PASSED	Zoom, Rotate & OCR Box
Site Performance	Asset Lazy Loading	PASSED	loading="lazy" Enabled
Global Portal Security	Passcode Security	PASSED	Hidden UI Password Text
Bangla Editor Defaults	Avro Phonetic Engine	PASSED	OFF (false) by Default
Module Exam Quiz	4 Primary Study Hubs	PASSED	Interactive Quiz Engine
GitHub Deployment	Remote Sync origin/main	PASSED	Clean Commit & Push

3. Detailed Audit & Verification Results

A. Mobile Responsiveness Scaling (320px - 1440px+)

- Smartphone viewports (375px-414px): Full touch-friendly scaling, clean adaptive grids (grid-cols-1 sm:grid-cols-2 lg:grid-cols-3).
- Touch Targets: Minimum 44px touch height for all interactive buttons and modal triggers.
- Modal Viewports: Scaled overflow container (max-h-[92vh]) preventing any mobile viewport overflow.

B. Image Upload & Inspection Lightbox UI

- Media Gallery: Renders data URLs, binary images, and web URLs with native loading="lazy" attributes.
- High-Res Lightbox: Full-screen modal with Zoom (+/-), Zoom Reset (100%), 90-degree Step Rotation, and direct Download button.
- Extra Section Details: Includes file metadata (format, dimensions, size estimate) and AI Vision OCR summary box.

C. Portal Security & Credential Protection

- Global App Guard: Full portal protection via GlobalAppAuthGuard component.
- UI Credential Hiding: All default password text and placeholder hints removed from login UI for security.
- Session Management: Instant Lock Portal button in header bar to re-lock workspace.

D. Interactive Module Exam Engine & Text Editor

- Exam Engine: Embedded ExamQuizEngine into all 4 primary hubs (BCS, Bank IT, Software AI, Languages).
- Bangla Avro Editor: Initialized liveMode state to false (OFF by default) so users type standard text freely.
